MEMORANDUM

Public Works Department

DATE: August 1, 2018

TO: City Council

FROM: Nancy Doan, Administrative Analyst I
Jacqueline Andrews Solomon, Assistant Public Works Director/City Engineer
Michael A. Fuller, Public Works Director

SUBJECT: Adopted Fiscal Year 2018-19 Capital Improvement Program

The City Council provided guidance for the development of the Adopted Fiscal Year 2018-19 Capital Improvement Program (CIP) during Study Sessions on March 20 and May 1, 2018.

The CIP was adopted by the City Council on June 19, 2018, and funding for Fiscal Year 2018-19 projects was approved as part of the adoption of the Fiscal Year 2018-19 budget on June 19, 2018.

ADOPTED FISCAL YEAR 2018-19 CAPITAL IMPROVEMENT PROGRAM

The Adopted Fiscal Year 2018-19 CIP is balanced and maintains all fund reserves as required by Council policy.

Adopted Fiscal Year 2018-19 Capital Projects

New Projects

In addition to funding 33 planned nondiscretionary annual and periodic infrastructure maintenance projects to preserve the City's significant investment in its infrastructure and facilities, the Adopted Fiscal Year 2018-19 CIP funds 28 new discretionary projects responding to City Council, community, and operational priorities. Attachment 1 provides a description of the new Information Technology (IT) related initiatives that will be undertaken and funded by the Fiscal Year 2018-19 annual nondiscretionary IT projects (Projects 19-30, 19-31, 19-32, and 19-33), as well as a funding enhancement for an existing IT-related project (Project 16-18).

Additional information regarding each of the new nondiscretionary and discretionary projects can be found in the Nondiscretionary Projects and Discretionary Projects sections of this document.

Amended Projects

The Adopted Fiscal Year 2018-19 CIP also includes funding amendments to six existing capital projects reflecting changes to project scopes and/or funding requirements. Additional information regarding project amendments is available in the Amendments to Existing Projects section of this document.

Active Projects and Projects to Close

Staff carefully reviewed the status of all active capital projects to determine which projects could be closed at the end of Fiscal Year 2017-18 so that unspent balances could be reprogrammed to other capital projects. This effort resulted in \$362,000 being returned to various funding sources. A list of the remaining active projects is provided in the Active Projects section of this document.

A list of projects closed at the end of the 2017-18 fiscal year is provided in the Projects to Close section of this document.

CONCLUSION

The Adopted Fiscal Year 2018-19 CIP places a priority on funding annual and periodic infrastructure projects that preserve the City's significant investment in infrastructure and facilities, and new projects that support City Council, community, and operational priorities.

Attachment: 1. Information Technology Project Request for Fiscal Year 2018-19

CITY OF MOUNTAIN VIEW

MEMORANDUM

Information Technology Department

DATE: May 1, 2018

TO: City Council

FROM: Steve Rodriguez, Information Technology Manager
Roger Jensen, CIO/Information Technology Director

VIA: Daniel H. Rich, City Manager

SUBJECT: Information Technology Project Request for Fiscal Year 2018-19

PURPOSE

This memorandum transmits the Capital Improvement Project (CIP) requests for the Information Technology (IT) Department for Fiscal Year 2018-19.

BACKGROUND

IT CIPs are usually identified as a single project, but may consist of subprojects or separated into different projects for tracking purposes. Proposals for Fiscal Year 2018-19 total \$715,000 (plus administrative costs) and are as follows:

New Projects:**Additional Fiber-Optic Network Provider and Redundant Audio Recording Server for Police Department/Fire Department (PD/FD) (\$105,000)**

The PD/FD Administration Building currently has a single fiber network provider for Internet access. A secondary provider would ensure connectivity in case there is a cable cut or service interruption by the primary provider.

The Dispatch Center needs a redundant audio recording server to ensure recording services are available if the primary recorder is not available.

Intergraph CAD Upgrade (\$300,000)

This is the City of Mountain View's portion of an upgrade to the Computer-Aided Dispatch (CAD) system used by Mountain View, Palo Alto, and Los Altos.

IT Infrastructure (\$60,000)

This fund is used for to add capacity due to new hires and building remodeling, and replace miscellaneous equipment that is not covered under our Equipment Replacement Fund.

Audio-Visual System Replacement for Senior Center (\$200,000)

The Audio-Visual (AV) system is the original equipment that was installed when the Senior Center was built. This equipment provides projectors and screens for the rooms, DVD and VHS players, the paging system throughout the building, and the speaker system. The equipment is starting to fail, and there is no warranty support remaining on the equipment. The Dance Room has no AV equipment and depends on mobile equipment rolled into the room when it is needed. The system does not have support for mobile devices, such as iPhones and Android devices, for instructors to plug their equipment into the system. The main banquet room's floor boxes are no longer functional to connect laptops and other media devices into the projector system.

Amended Projects

Geospatial Information System (GIS) Development (\$50,000)

The funding will continue the development of the GIS platform by expanding the application pool to include advanced web-based mapping solutions and establish an ongoing data maintenance framework to ensure the GIS remains accurate and up to date. Add funds to CIP 4161802.

CONCLUSION

A comprehensive review of all current and scheduled projects was performed. These projects have been identified to improve the City's IT systems capacity, reliability, and functionality.

Please let us know if you need any additional information or have any questions.

<p>Project 20-47 and 21-43 Citywide Trash Capture, Phase II and III Provision C.10 of the NPDES permit requires the City of Mountain View to implement control measures and actions to reduce trash load from municipal separate storm sewer systems by 40% by 2014, 70% by 2017, 80% by 2019, and the equivalent of 100% by 2022. The installation of approved trash capturing devices in the City's storm drain system at Villa St. and Latham St. would help towards meeting these goals. Trash capture unit options include CDS, NSBB, or inlet filters.</p>	Sponsor Department: Public Works Department Category: Regulatory Requirements Additional Annual O&M Costs: TBD Prevailing Wage Project?
