Subject: Reminder: Castro Street Pedestrian Mall Guidelines/Framework Update: 2023 Implementation
Date: Tuesday, January 17, 2023 4:18:35 PM

Hi Folks

Wishing you a Happy New Year. It has been a few months since City staff have held our office hour meetings with the Downtown Business Community. Office hours is an opportunity in a less formal setting for City staff to hear from the business community along with us providing updates on what is happening in the Downtown. Of note, is the recent Council approval for the Downtown Pedestrian Mall. Starting in September 2022, a City Council Ad Hoc Committee for the Pedestrian Mall has been providing input and feedback into the development of the Interim Pedestrian Mall Guidelines and Framework. City staff want to provide the business community an update on several topics and issues related to the Pedestrian Mall.

City Staff have outlined three meeting opportunities to engage with you (if none of these work for you please contact me directly and I will arrange some individual time).
